TERMS OF SALE

All coins and bills guaranteed genuine.

New bidders or customers sending in bids for the first time must positively give first class reference, bank reference preferably, or else send a deposit of at least 25% of the total amount of bids. Otherwise, their bids will not be accepted; application of such deposit will be made upon successful bids; the seller reserves the right to demand payment upon successful bids before delivery in his sole discretion. To those known to me who have established credit, a reference or deposit is not necessary and purchases will be sent out promptly after the sale. In appreciation of this courtesy the purchaser remits promptly.

Collectors who make unlimited bids will get the lots at 5% above the highest actual bid entered.

The terms are prompt cash settlement after sale, and no time given. Collectors who are not certain that they can pay promptly are asked not to bid. The coins in the sale are the property of my clients, and I must make prompt settlement for them.

Remit by money order, draft, check, or in any way most convenient. Stamps accepted for accounts that are below one dollar only.

Coins will be bought below your bids where other offers permit, as this is competitive bidding, executed in good faith.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. Postage and express is paid by the purchaser.

Receipted bills are not sent out after your remittance as this is unnecessary. **Your check, draft or money order itself is a receipt. However, if a 3-cent stamp is enclosed we will send receipt.**

Be certain that you bid on the lot you wish to buy. We will correct errors and adjust claims, but you should not expect us to pay for your mistakes. **Be careful in making your bids. Be sure that you bid on the lot you wish to buy, and at so much per piece.**

Bids must reach me by the morning of the sale. Mail them in time so as to avoid disappointment. At each sale some bids arrive too late to be executed.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same,

and there are no higher bids, the first received gets the lot. When two or more unlimited bids on a certain lot are sent, the first one received gets the lot at a 5% advance over the highest actual bid.

Between the seller and buyer, my position in describing the condition of coins and bills has been neutral. My classifications are generally considered to be conservative, by the collecting public.

It is easy to bid by mail. If you do not know how much to bid on any items, write me giving numbers in catalog and I shall be glad to inform you as to values. It is useless and a waste of time to make low bids that have no chance of success. I sincerely hope that each collector acquires some nice lots from this sale that give him a real thrill and joy of satisfaction.

Please bid by the piece unless stated to bid for the lot. Thus, if there are 12 pieces in a lot and you wish to pay \$6 for the lot, then bid 50c. At each sale someone bids by the lot. Don't do this—bid by the piece.

NOTE—A printed list of all the prices realized at this sale will be sent for one dollar, cash with order in advance. Or it will be furnished to bidders at this sale for only 25 cents in coin, if ordered in advance of the sale, and a quarter is enclosed with the bids. It is a great help and a satisfaction to keep posted on values.

END OF SALE

Note—The regular price for a printed price list of all the prices realized at this sale is one dollar, and well worth that. However, bidders at this sale are our particular friends, and the same price list will be supplied to them for 25 cents, if ordered in advance with the bid sheet. Keep posted on present day values. Priced catalogues are always of value.

119th Sale Now in Preparation. Our 119th sale is now in preparation. Send in your collection or consignment now, or as soon as convenient, and we will do our level best with it. Prices are good, and the demand for fine coins is steady and certain. We are sure you will be delighted with our descriptions and catalogue work. We give collections a lot of space and time, the benefits of our long experience of thirty years a collector, and the satisfactory and successful conduct of one hundred seventeen sales. You do not need to wait long until a sale is prepared, and settlement after the sale is prompt. If the collection is large or valuable and the owner desires a personal interview, we will make the trip to your home for complete arrangements. Write us today.

A TRIP ABROAD

(Continued from 117th catalog)

A long journey by train and boat took us to Denmark. This country is about as flat as a pancake and has more cows and bicycles than people. Dairy products, especially butter, are the leading exports. Copenhagen with 600,000 inhabitants, is the leading city. Hundreds of bicyclists crowd the streets, as the few automobiles are carefully driven, with never a mishap. Auto horns are rarely honked in Europe; there seems a decency reflected in the absence of impatient blatting of horns, and in some countries it is forbidden to equip cars with horns.

Rosenberg Castle contains the costly Royal jewels, and is called the Kingdom's Treasury. The inconceivable sums represented by the valuables cover easily the public debt of the country. In this beautiful old Renaissance castle in the romantic "King's Gardens" are remembrances and valuables of the Danish kings for the past five hundred years.

The Thorvaldsen Museum contains the tomb and life work of this famous sculptor, greatest of modern times (1770-1844). Here may be seen a marvelous collection of several hundred pieces, the original models of his large monuments, horses, persons, etc., and all by Thorvaldsen.

The Carlsberg Glyptothek contains the largest collection of

sculpture in Northern Europe from the time of Nineveh and Babylon to the present days. The Kodbyen is an ultra-modern meat market built at a cost of 17 million kroner. Roskilde Cathedral, built in the 12th and 13th centuries, is the largest and most beautiful in Denmark. Thirty-four kings and queens have their memorials under the vaults of the church. The sarcophaguses are worked out in marble, alabaster, and silver. Evenings are delightfully passed in the world-famous Tivoli gardens. Here are splendid concerts, and light amusements.

Fredericksborg Castle seems like a fairy tale, a vision, when its slender green towers and red walls are reflected in the limpid water of the lake surrounded by a frame of huge dome-like beech trees. It was built in the 16th and 17th centuries in Dutch Renaissance style and now contains the National Historical Museum. The government coin cabinets are housed in six rooms, with about 12 to 15 cases of coins in each room. The exhibits here are perfectly arranged in fine oak dust-proof velvet-lined cases, properly tilted. Raised horizontal parallels hold the coins in place. Small numbers on raised cubes in position give ready catalogue reference. Locks and an ingenious alarm and burglar system are in use.

Here we study a highly specialized and very extensive collection of Danish coins from the earliest times. They also have a very thorough collection of ancient Greek and Roman coins, including seven Syracuse Decadrachms, and many hundreds of Roman gold aureii from finds, usually not better than fine—some holed and looped as found—but still plenty in magnificent condition. Of great interest is a collection of four hundred Danish gold medals, all of large and very large size, many unique pieces. Search for rare coins in shops and elsewhere brought little reward here, as we found prices high, on coins.
